

1. **Editorial Board**
Page ii
2. **Behavior of unsaturated weathered residual granite soil with initial water contents**
Pages 1-10
Chan-Kee Kim, Tae-Hyung Kim
3. **Constitutive model for rock fractures: Revisiting Barton's empirical model**
Pages 11-32
Pooyan Asadollahi, Fulvio Tonon
4. **Serapeum temple and the ancient annex daughter library in Alexandria, Egypt: Geotechnical–geophysical investigations and stability analysis under static and seismic conditions**
Pages 33-43
Sayed Hemeda, Kyriazis Pitilakis
5. **Land subsidence and pore structure of soils caused by the high-rise building group through centrifuge model test**
Pages 44-52
Zhen-Dong Cui, Yi-Qun Tang
6. **Analysis of shallow instabilities in soil slopes reinforced with nailed steel wire meshes**
Pages 53-61
Almudena Da Costa, César Sagaseta
7. **Geotechnical characterization of Macau marine deposits**
Pages 62-69
W.M. Yan, Yongfeng Ma
8. **Time series analysis of hydrologic data obtained from a man-made undersea LPG cavern**
Pages 70-80
Yun-Ju Jo, Jin-Yong Lee
9. **Physical model simulation of shallow openings in jointed rock mass under static and cyclic loadings**
Pages 81-89
Kittitip Fuenkajorn, Decho Phueakphum

Technical notes

10. **Influence of water level fluctuation on phreatic line in silty soil model slope**
Pages 90-98
Zong-Ling Yan, Jun-Jie Wang, He-Jun Chai
